It must be fun for people to have an organ which is obliged to everlastingly keep its mouth shut on a topic they would like to be defended on.

The medal winners at the range Sunday were: C. H. Galusha, first class, 45; Homer Thaxter, second class, 40; Ed Carney, third class, 39; Frank Murphy, fourth class 37.

The Mormons are really not as murderous as they used to be. About thirty years ago the avenging angels carried out the blood atonement doctrine and killed the enemies of the church by shooting them from behind trees. Now they have cooled down, and take it out poisoning their neighbor's dog and shooting his cow.

The Wave.

That bright weekly journal, the Wave, which fills the society, literary and political field at San Francisco, comes to the exchange table filled with admirable stories for the pleasure of its many readers. This journal's opinions and articles are widely copied. For some time it has been giving considerable attention to the purely literary side of journalism, and each week prints two or three excellent short stories. Among the admirable features this week are: Some Facts from the History of Joshua Hendy; Supervisors in Danger of the Grand Jury; General McComb's Scheme to Defeat the Folsom Rabbit; War Averted in the Democrats Camp; A Story of Pistols at a Capitalist's Bed-side; Bits from the History of the Maillard Family, and a wealth of other readable tales. The Wave has broadened its scope and rolls for all.

How is it Done?

The San Francisco papers tell of a man, Billy O'Brien by name, who went out the other day to lick three men, and inside of a few hours he landed them all in the hospital.

It is not surprising that a good active man can lick three men if he catches them singly; but how the deuce did he make out to find them all in one day?

The writer has frequently started out to find a man in San Francisco, and it often takes the best part of a week to track one up, run him down and find him in.

The idea of finding three men you want to see all in the same day is something utterly beyond our comprehension.

If we were asked to take our choice between finding a needle in a haystack or three given men in S. F., all to be found in the same day, we would start in looking for the needle.

Having secured the services of the well known Carson shoemaker Mr. E. F. Morton, we are prepared to do all custom work and repairing at short notice, and in a first class manner. Jason S. Burlingame. o10

WHY IS IT?

The Failures Who Malign Nevada.

Over in Reno yesterday the Native sons of Nevada celebrated, with much rejoicing, the twenty-seventh anniversary of the admission of the Sage Brush State into the Union. Odd that they should be proud of it, too! The rest of the country never thinks of Nevada as a State save with a feeling of shame.—Oakland Times.

Of course there is a good reason for the opinion that outsiders have of Nevada.

Nevada has been cursed for years with a lazy, nonproducing class of men, whose only means of subsistence in life is to get some political party to give them a nice cosy berth at good salary.

When they go before conventions and fail to be renominated, they pack their grip sacks and go to California, where they spend their time maligning the State of Nevada.

Again there is a class who have sucked the public teat so long in Nevada that they consider it a personal insult if anyone else talks of contesting their right to hold office for life.

When they are finally invited to make room for some one else, they find that they have drawn salaries for years, and yet got out of office broke, all because they have never seen fit to make any Nevada investments, or buy one foot of ground in a State that has supported them in idleness half their lives.

They suddenly become disgusted with the country and go to California where inside of six months they are striking every Nevada man they see on Montgomery street, for five dollars, which they never repay, and in a year they are glad to get 25 cents for their meals and whisky, 15 cents for whisky and the balance for grub. These, as a rule, are the sort of people who malign Nevada to the outside world.

They have been compelled to leave the State because they lacked the enterprise to compete with the live, go ahead people alongside of them and cover the real reason of their exodus by running down the country which they left.

The U. S. Grand Jury.

The U. S. Grand Jury met yesterday and found indictments against Claude Ringman (colored), Edward Stanley, Timothy Harrigan, John Conlin and Geo. Wallace for selling liquor to Indians. Two were from Elko and the rest from Wadsworth. Daniel Green of Washoe was indicted for stealing a mail sack from the cars at Reno.

No Increase of Taxes.

Yesterday the Board of Commissioners decided to leave the tax rate as originally fixed. Taxes become delinquent Dec. 7.

Dr. Fox treats private, chronic and nervous diseases of men, nervous debility, impotence, stricture and all other weakness of manhood.

Poor Silver Mexico.

The San Antonio Express says: "Manager Joseph A. Robertson of the Monterey & Mexico Gulf Line is one of the most remarkably successful railroad men in the Republic." That gentleman says:

"I believe that there will be more miles of railroad built in Mexico during the next twelve months than will be constructed in the United States in the same period of time. There are certainly more projects 'in sight' in that country at the present time than there are in the United States. There are vast areas of rich agricultural and mineral lands in Mexico to be developed by the building of railroads."

In speaking concerning the Tehuantepec Railroad projects, which is just now under somewhat of a cloud because of the action of Salvador Malo, who is alleged to have secured a very large sum of money from the Government without making adequate returns, Mr. Robertson said: "The Tehuantepec enterprise is one of the greatest ever undertaken in Mexico. It is in charge of the Government, and the road is certain to be built. Fifteen million dollars have already been expended on the road, and the Government could not well afford to let the work stop, after having gone so far along with it."

We commended the foregoing to those gentlemen who dread using silver as money, and bid them reflect that Mexico has but about eight or nine millions of people altogether; that of the four-fifths are but one grade above Indians, and yet are stretching railroad through their country, they are keeping up the interest on the bonds of those railroads, there is general progress all over that Republic, and it is because they are using their own silver. More than that, they are buying a good many products of the United States which they might just as well produce at home as not, which shows that their prosperity does not come from their agriculture—it comes from no source of revenue whatever except their mines. Our financiers in the East had better cease pitying Mexico and give a little of their surplus sympathy to their own people. —Salt Lake Tribune.

There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely in your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit.
